ORGANIZATION AND MANAGEMENT.2

20 AUG 1967

MEMORANDUM FOR: Office of Planning, Programming and Budgeting
THROUGH: Deputy Director for Intelligence
SUBJECT: Cost Reduction and Management Improvement Program
REFERENCE: OPPB Memorandum dated 1 August 1967, Subject: Call for Cost Reduction Program FY 1968 and FY 1969

1. Forwarded herewith in compliance with the referenced memorandum are Forms 2500 representing the cost reduction and management improvement objectives I have established for the Office of Economic Research for Fiscal Year 1968 and 1969.

2. Aside from our continuing efforts to improve efficiency through good management, the results of which cannot be quantified easily, it is becoming increasingly more difficult to identify areas in this Office where significant tangible savings can be realized. Cost reduction actions during the past several years have served to reduce operating costs to a minimum. As a result of these actions, and given our assigned mission, I consider the Office budget estimates for the current and next fiscal years to be austere and therefore to offer few prospects for further reduction of tangible costs without affecting adversely our program responsibilities.

25X1A

WILLIAM N. MORELL, JR.
Director
Economic Research
